

SSH AS ROOT ON PUTTY

apt-get install ssh (au besoin)

modification de sshd_config

To enable SSH login for a root user on Debian Linux system you need to first configure SSH server. Open `/etc/ssh/sshd_config` and change the following line:

```
FROM:
PermitRootLogin without-password
TO:
PermitRootLogin yes
```

Once you made the above change restart your SSH server:

```
# /etc/init.d/ssh restart
[ ok ] Restarting ssh (via systemctl): ssh.service.
```
